

The Coseng WB-MC KIT can be used if:

1. The center hole of the motorcycle wheel (axle hole) has a diameter of .551 inch (14mm) to 1 inch (25mm).

2. The hub assembly of the wheel is not wider than 9.25 inches (235mm).

Disclaimer: Due to the growing variety of motorcycle wheels on the market, Coseng can't guarantee that this kit will work with all wheels.
