

The Atlas WB-XLT KIT can be used if:

1. The center hole of the wheel (axle hole) has a diameter 1 inch (25.4mm)

2. The hub assembly of the wheel IS WIDER than 11 inches (280mm) but LESS than 14 inches (355.6mm)*

* XLT extension nut available
at an additional cost

Disclaimer: Due to the growing variety of motorcycle wheels on the market, COSENG can't guarantee that this kit will work with all wheels.
